

FL-MATRIX 100 RGB

REMOTE CONTROLLABLE

FL-Matrix 100 RGB is a squared lamp with **100 RGB independent lamps** which allow the realization of many different light animations such as LED writings and letters scrolling.
 It is supplied with nut, locking ring and socket with Fun-Led C24 female connector.
 Matrix is a special LED lamp for the lighting of particular applications such as the backside of Break Dance vehicles or the perimeter of Tagadas.
 The lamp is available in the **FRONTAL PULL OUT** version installation mode.
 FL-Matrix 100 RGB is completely **SEALED** and suitable for indoor and outdoor applications.
